Szczecin, September 21st 2013

Dear members of the Board,
we like to ask General Assembly 2013 to create new section in our organisation → **64 – international** (brasilian version). This game is the **ONLY ONE** on 8x8 board which we use to play in Poland regullary.
In our view it is the only one solution for all of us – let make a split between 64-russian and 64-international (brasilian). We are not interested in 64-russian rules and all activities of theirs leaders!

We like to have our **OWN** Championships only for THIS version of draughts rules.

We are full with all this organisation like MARS or new "IDF". We like to be a part of FMJD with all games. In our view, this section should be real part of FMJD body (including treasure etc).

We like to spend our time for developing game which is natural beginning for FMJD main game – 10x10.

Yours faithfully,

A handwritten signature in blue ink, which appears to be "Jacek Pawlicki". The signature is written over a blue circular stamp. There are also some blue ink marks resembling a draughts board pattern near the signature.
